Instructions before Use

1. A member of the high blood pressure, heart disease, high blood pressure do not sauna.
2. Who has a cold should not be sauna. because the sauna room hidden cryptococcus bacteria can enter human body through respiratory tract, such as easy to cause pneumonia, etc.
3. Do not sauna when overwork and can't sleep in sauna room. People with poor muscle tone when they are tired, reduce the stimulation of cold and hot resistance ability, easy to cause collapse when sauna.
4. Do not sauna when on an empty stomach, lest cause cardiovascular collapse. Should not be sauna after overstrain brain or strenuous exercise, it can cause brain anemia or shock.
5. It is not suitable for sauna not after half an hour feast, because the high temperature make the skin vasodilation, blood backflow in great quantities, which affects the blood supply of the digestive organs, interfere with digestion and absorption of food.
6. Do not sauna after drinking. After heavy drinking, it can make the brain systems at the mercy of the function to drop, at this time if sauna, under the effect of alcohol, a amount of sweat will make human body caused by rapid filtration syncope.
7. Do not wear jewelry when sauna, like jade, necklaces, watches, etc are easy absorption of heat may be burn the skin.
8. Do not apply cosmetics, because it can block pore, prevent sweat evaporation.
9. Sauna is not suitable for the elderly, sitting in a sauna room, the body sweat more, the blood becomes sticky, it is easy to form thrombus, cause of various cardiovascular diseases. Especially the elderly, their body temperature regulating center not too sensitive, so not suitable for sauna.
10. Sauna should not be too long, if too long, excessive sweating can make the person to exhaustion; temperature is too high, can be difficulty breathing. In general, in the sauna room should be come out every 5-10 minutes. Setting temperature personalized, it is recommended that the dry steam temperature between 60 °C to 80 °C make the person feels more moderate.
11. Do not immediately come with cold air after sauna, prevent big difference temperature cause vascular contractions induced stroke.
12. Go with partner sauna, should be timely supplement moisture, do not wait until thirsty to drink.
13. Keep awake when sauna, if have shortness of breath, dizziness and other symptoms should immediately stop sauna, lie down in a better air circulation place, drink some cold boiled water, not drink too low water temperature.
14. Do not get up too fast and too hard, be sure slow up and adequate rest.

Introduction:

Instructions before assembly

1. At least two people are required to assemble the sauna.
2. Assembly location: check whether the ground or platform is horizontal, and slight slope will not affect the assembly and use of sauna, but if the slope is evident, a pad is needed to keep the sauna level.
3. All screw heads to assemble sauna must be completely inserted into wood to avoid scratching skin during use. If you want to assemble accessories provided by other companies to the sauna, try to avoid metal accessories, or insulate them.
4. Please find qualified electricians to install the electrical elements in sauna.

Maintenance instructions

- (1) Turn on sauna heater, setting desired temperature, normally 60 °C -80 °C (in the area between bench surface and your head). Start with low temperature and increase it according to endurance of your body when you are in a sauna for the first time.
- (2) Before the sauna, take off clothes, glasses, jewelries, cell phones and other belongings, and then take a simple shower or spa.
- (3) The average sauna period for each time is around 5-15 minutes.
- (4) After a sauna, you can take a bath in a swimming pool or take a shower to cool your body for 10-20 minutes.
- (5) After re-entering the sauna, you may find there are drops formed by vapor on sauna stones. If water drops to the ground, it means you are overusing the sauna.
- (6) At least rest for 20 minutes after the last time in sauna. First take a shower with soap and warm water, then with cool water to close skin pores. Put on clothes after your body temperature completely lowers. (children must be companied by parents)

Suggestions:

- (1) Paint the surface of sauna annually. You can choose the wood wax coating service provided by our company when purchasing the product.
- (2) Put a carpet before the door to keep the floor clean.
- (3) Brush obstinate stains on the sauna with sandpaper for daily maintenance.
- (4) Replace sauna stones after over 500 hours in normal use.
